

The story of this young girl is not easy to accept.

We wish we never had to make a video like this, but whether we like it or not, this story needs to be heard. We have distributed over 3.7 million promise cards to over 150 countries and we have never seen a promise like this.

Sometimes the most difficult thing to do and the right thing to do are one in the same. After watching her video, please share the video link if you support her decision.
