

# Easy Face Mask with Darts

## Supplies:

- 2 pieces of contrasting fabric (8" x 11")
- Strip of fabric for ties (2¼" x 45")

## Directions:

1. Cut out all pieces.
2. Fold down ½" on one long side of each 8" x 11" piece & topstitch down. Backstitch the ends.
3. Layer fabrics right sides together with the folded edges at the top, stitch down the other three sides with ¼" seam allowance. This creates the pocket. Trim the excess fabric from the corners.
4. Turn right side out & fold in half lengthwise (like a hot dog).
5. Mark in 3" from outer edge on both sides of folded edge & draw a line from the 3" mark to the corner to form the dart.
6. To make strap, trifold long piece of fabric lengthwise & top stitch down through all layers.
7. Lay strap inside "hot dog" as pictured with raw edges hanging out at a 45° angle & sew along dotted lines - this will form darts & encase the strap.
8. Flip right side out & clip strap in the middle to form two straps.
